One of Two Pilots Captured

S. Viet Nam Planes Attack Palace of President Diem

SAIGON, South Viet Nam (AP)—President Ngo Dinh Diem's palace was bombed today but the 61-year-old anti-Communist president escaped harm.

The government said the attack was carried out by two air force officers acting on their own.

The planes swept in low just after dawn and attacked the palace with fire bombs, rockets and machine guns. One pilot was captured.

Six hours after the attack this capital resumed its normal outward appearance except for soldiers guarding street corners. There was no sign of a revolt to add to the difficulties of the South Viet Nam nation already fighting a war with Communist guerrillas.

Naval anti-aircraft guns just outside Saigon shot down one of the two American-made fighter-bombers which blasted the palace. Its pilot, Lt. Pham Quoc was captured alive, Civic Action Minister Ngo Trong Hieu announced.

The pilot of the second plane was identified by the minister as Nguyen Van Cu, a sublieutenant. His plane, riddled with anti-aircraft fire, was reported to have crash landed at Phnom Penh airport in neighboring Cambodia. Cambodian authorities arrested the pilot.

The civic action minister told a news conference the "two rebel officers," stationed at the big military airfield at Bien Hoa, 20 miles northeast of Saigon, staged an "isolated action." He said nothing was known yet as to their motives.

The U.S. Embassy announced that one American died as an indirect result of the attack. He fell from the roof of his apartment while watching planes swooping at tree-level height. He was identified as Sidney Ambrose, 59, a contractor from Portland, Ore.

Shortly after the attack, Diem went on the air and broadcast that "Thanks to divine protection I myself and my close collaborators were not in danger."

Two of Diem's brothers, Roman Catholic archbishop Ngo Dinh Thuc and Ngo Dinh Nhu, and

Nhu's wife, who acts as the bachelor president's first lady, were in the palace at the time. She was reported to have suffered a slight arm injury.

Ngo Dinh Nhu is a close adviser to the president, who has been accused by critics of running a family dictatorship.

Diem said loyal armed forces had the situation "completely under control throughout the national territory."

He came safely through a short-lived uprising by five paratroop battalions 15 months ago. But there was no sign that the air attack on his palace was coordinated with any general uprising or ground action.

The planes used by the two rebel officers were described as AD6 Skyraiders, former U.S. Navy aircraft supplied to the South Vietnamese air force.

Casualties from the attack on the palace were not known immediately, but several wounded palace guards were loaded into ambulances.

(In Washington, U. S. officials said first reports listed one dead and two hurt in the air assault on the cream and yellow palace. They said none of the 4,000 American military personnel and civilians in South Viet Nam were involved.)

"All air force bases have been alerted," said Diem in his broadcast. "All measures of security have been taken. All offices are to function normally and the population should remain calm and fulfill its duties."

A government newscast said Diem had left the palace 45 minutes after the attack "for a scheduled field trip."

The surprise attack at 6:50 a.m. caught the palace with only a few troops on guard. Immediately after military authorities set up a tight defense perimeter manned by truckloads of heavily armed soldiers.

Thousands flocked to the palace area after the planes left for a glimpse of the damage but troops quickly cleared them away and threw up a cordon two blocks from the palace.

Three hours after the attack the city appeared quiet but an air of tension prevailed as troops and police patrolled in force.

The planes circled low over Saigon, then made bombing runs on the palace at treetop level and scored direct hits with napalm fire bombs.

First reports said about four bombs were dropped, then the planes switched to rockets and

Communists Gain In Some Districts

Nehru Party Leads Reds In India Race

NEW DELHI, India (AP)—Prime Minister Nehru's Congress party maintained its overwhelming lead today in returns from the Indian elections but the Communists and regional parties with separatist ambitions showed strength in districts scattered across the nation.

Returns from 1,477 of the 2,930 state legislature seats and 62 of the 494 parliamentary contests gave Nehru's party 969 of the state assembly seats and 29 of the Parliament seats.

The Communist party was second with 79 assembly seats and 8 in Parliament.

Political observers said the continued strength of the Communists, despite Red China's encroachment on Himalayan territory claimed by India, indicated the Communists had capitalized on local grievances while voters forgot national problems.

The Communists improved their percentage of votes in south India's Kerala State, from 43.32 per cent in a 1959 election of the state assembly to 54.4 per cent in 15 of the 18 parliamentary races. The Congress party and the Peoples Socialist party allied with it in Kerala dropped from 48.83 per cent to 44.4 per cent.

The Communists also improved their position in Andhra Pradesh State. Partial returns gave them 37 assembly seats. They had 15 seats in the last assembly. Nehru's Congress party had 110 seats.

The new conservative Swatantra (Freedom) party had won 60 assembly seats and one in Parliament.

The Jana Sangi party of right-wing Hindu traditionalists was running strong in central India's Madhya Pradesh State, where one

of its candidates defeated the Congress party's chief minister. Jana Sangh had a national total of 40 assembly seats.

In North Bombay, Defense Minister V. K. Krishna Menon held a 2-1 lead over his chief rival for the left-leaning Nehru associate's seat in Parliament. Menon's total was 72,792 votes. Coalition candidate J. B. Kripalani had 37,176 with about one quarter of the votes tallied.

Rebels Accept French Truce, Reports Say

TRIPOLI, Libya (AP)—The Algerian rebel parliament has accepted a peace agreement with France to end the 7½-year Algerian war, well informed sources said today.

The sources said the National Council for Algerian Revolution, the rebel parliament, met here today to draft an announcement of its acceptance of the accord worked out by French and rebel representatives in secret negotiations in Switzerland.

But the sources said the announcement would not be made until the rebel council has been discussing the peace agreement for the past five days in Tripoli.

The French government already has approved the agreement, which calls for a cease-fire, a transitional period during which a self-determination referendum will be held in Algeria, and guarantees for the European minority in Algeria. French use of the naval base at Mers-el-Kebir outside Oran, and French interests in the Sahara oil fields.

In preparation for announcement of the agreement and the anticipated violent reaction from die-hard European opponents of Algerian independence, French Premier Michel Debre ordered French military commanders in Algeria to deploy reserve forces through the major cities swept by waves of terrorist killings.

Debre reportedly ordered commanders to deploy forces which had been held in readiness for any attempt by the Secret Army Organization of European settlers to overthrow the government.

Thirty-seven persons were killed Monday and 49 wounded in Algerian cities. In Algiers alone 22 died.

The government seemed helpless to stop the killings, mostly of Moslems shot by European gunmen.

Authorities sent a battalion of infantry and three squadrons of Mobile Guardsmen—about 1,000 men—into the heart of Algiers Monday. Soldiers lined the Rue Michelet, a street of shops and cafes where Europeans strolled despite shots and speeding ambulances.

IRA Announces Plans To Halt Terrorist War

North Ireland Wary Of Sudden Promise To End Hostilities

DUBLIN, Ireland (AP)—Both sides of the Irish border welcomed today the underground Irish Republican Army's announcement that it had abandoned its terrorist war to unite the island. But Northern Ireland's government, target of the outlawed IRA's attacks, said it will keep its guard up.

The IRA declared its peace in copies of a statement slipped on to front counters of Dublin newspaper offices Monday night.

The 1,000-word statement said the IRA members had called a halt to five years of bombing and shooting attacks and had thrown away their arms.

The IRA admitted it had received little support from the Irish people and blamed public apathy on government muzzling of the press. It said the IRA would embark on a campaign to keep Ireland out of involvement in European alliances which it said might lead the country into war.

Charles Haughey, minister of justice of the Irish republic, called the IRA decision good news and said the underground's terrorism "was a policy which Irish public opinion had decisively rejected."

In Northern Ireland, which gives its allegiance to the British crown, Minister for Home Affairs Brian Faulkner said the IRA statement "is of course welcome." The tragedy is that these misguided people who have carried on a futile campaign for five years have taken so long to realize its hopelessness.

He added "until it is seen that the campaign is in fact ended, our own people can be assured that security precautions will be maintained."

The IRA is an underground descendant of the Irish revolutionary forces which won independence from Britain for the southern 26 counties between 1916 and 1922. The northern six counties remain part of the United Kingdom.

Since the IRA renewed its terrorism five years ago, scores have been killed in skirmishes on the northern border, bombings and ambushes. Security measures for an all-Ireland population of four million are estimated to have cost \$4.2 million a year.

The republican government has kept 800 police in full-time operation against the IRA. Northern

Telecast Exchange Expected In March

WASHINGTON (AP)—The United States and the Soviet Union are reported to be arranging for an exchange next month of simultaneous filmed telecasts by President Kennedy and Premier Khrushchev.

Informants said Monday the tentative date for the exchange is March 24 or 25. They said each leader would make a 15-minute statement, followed by translation, which would be shown in the other country.

White House press secretary Pierre Salinger said "there are no present arrangements" for such programs.

Other sources, however, said Salinger reached agreement in principle on such a trade with his Soviet counterpart, Mikhail Kharlamov, when the two met in Paris last month.

Presentation of the American viewpoint behind the Iron Curtain, including statements by U. S. leaders, has been a longtime U. S. objective which has met with limited success so far. Kennedy was interviewed last November by Izvestia editor Alexei I. Adzhubei, Khrushchev's son-in-law. The interview was published in the Soviet government newspaper.

While the Kennedy-Khrushchev exchange was described as a matter between the White House and the Kremlin, it was understood that details have been discussed at the current State Department

After Big Day At Capital

Glenn Returns To Arlington Home

WASHINGTON (AP)—It was a long, wet, happy day on the glory trail for John H. Glenn Jr. and his family—a triumphal day of trumpets and thunderous applause and tears of pride.

It didn't end until they were home in suburban Arlington, Va., listening to their neighbors singing "For He's a Jolly Good Fellow."

Then the Glens slipped into

their house and put their feet up in front of the fire. They had a lot to talk about, both of the past and the future.

For Monday's celebration in the capital for astronaut Glenn, the first American to orbit the earth, may be only a taste of what is to come.

As one woman among the parade crowd put it: "America has needed hero, and now we really have one."

A hero's welcome is what the snub-nosed, grinning Marine got. It was a rainy bone-chilling day, and for a while officials feared the weather might keep away the crowds. They could have saved themselves some worry.

About 250,000 persons, by police estimates, lined Pennsylvania Avenue—the route of heroes—as the presidential limousine nosed out of the White House gate with Glenn perched high in back, grinning and waving.

From under the massed, bobbing umbrellas, the cheers came in waves. From 17 bands along the way—their brass horns blurring rain water—came the pulsing strains of the Marine Corps hymn and other stirring marches.

As the parade swung up the avenue, Glenn, 40, sat alone high on the back seat. His wife Annie sat on the back seat with Vice President Lyndon B. Johnson, and the Glenn's children, Lynn, 14, and David, 16, sat on the jump seats.

Midway through the 1.8 mile journey to the capitol, Glenn decided Annie—whom he described as "the real rock in our family"—should be as prominent as he and he helped her up beside him.

That's the way it went. To everyone but Glenn it was

Council To Meet On Glenn Resolution

A special meeting of City Council has been called for 5:15 p.m. Wednesday to consider a resolution commending Col. John Glenn for his achievement in orbital flight last Tuesday.

Plans are to have Salem city officials present the resolution to Col. Glenn when he visits his home town of New Concord on Saturday. Petitions are also being circulated in town for signatures.

City Solicitor Thomas Coe said the petitions will be pieced together end to end and presented to Col. Glenn Saturday.

Insurance For Nation's Aged Is Requested

Tells Lawmakers To Bring Modern Medicine To All

WASHINGTON (AP)—President Kennedy today sent Congress a new and urgent plea for health insurance for the aged, "self-financed" by a \$1 billion boost in Social Security taxes.

In a special health message urging lawmakers to bring the miracles of modern medicine within reach of all Americans, Kennedy also proposed:

1. A three-year, nationwide immunization drive to stamp out polio, diphtheria, whooping cough and tetanus, with Uncle Sam footing the whole bill for vaccine for every child under 5.

2. Federal loans to help build and equip centers for group practice by doctors and dentists, to stretch the supply of medical skills and improve the quality of care—especially in small towns.

3. New and expanded federal outlays totaling \$182 million for mental health, control of pollution, medical research and other programs.

Two new White House bills were due to reach Congress right after the message—the mass-vaccination plan and a broadened governmental attack on air and water pollution and radiation hazards.

"We can now save one out of every three victims of cancer," Kennedy told lawmakers who are just now grappling with some of his earlier health proposals.

"... full prevention of many forms of heart disease seems increasingly within our reach," he added.

"The discovery and widespread use of tranquilizing drugs in the past six years has resulted in an unprecedented reduction of 32,000 patients in the census of our state mental hospitals."

"But far more needs to be done."

The \$182 million hike in appropriation requests includes \$35 million for the immunization drive, but not the costs of another program close to Kennedy's heart—an attack on mental retardation in children.

His panel on mental retardation will make its reports by the end of the year, Kennedy said. With it in hand he will offer a program to discover, treat and prevent the many and obscure causes of this affliction of five million Americans.

Specific proposals to further the "group practice" plan will come later this session. Smaller communities will get priority in the loans to encourage general practitioners and specialists to pool their skills and facilities. Nonprofit and cooperative groups also will get preference, but private profit-making ventures will also qualify.

Both children and adults would benefit from the mass vaccination plan, if state and local programs are launched which qualify for federal aid.

Besides standing ready to pay for the shots of some 25 million tots under five, Kennedy said, the government would make matching grants to help finance local administrative and operating costs.

The administration bill, he said, also will contain authority for vaccinations against any other disease for which vaccines may be developed. There are hopes for a measles vaccine.

Kennedy renewed his request of three weeks ago for a 10-year program of federal matching grants for the building of 40 new medical and dental colleges and the granting of four-year scholarships to thousands of needy medical students.

But the No. 1 item on today's

Ohio to Reach Flood Stage At Cincinnati

CINCINNATI (AP)—The Ohio River, rising at the rate of six inches an hour, is expected to pass flood stage of 52 feet here by 6 p.m. today.

That was the revised forecast today by the U.S. Weather Bureau.

The Weather Bureau forecast a stage of 55 feet by 7 a.m. Wednesday with indications the river will continue to rise.

The stage here was 47.2 feet at 9 a.m.

Steady rains throughout this area and upstream caused the revision in the forecast.

Flood stage here will cause flooding of lowlands and some river front streets but there never is any serious damage until the stage reaches 60-65 feet.

The weather bureau said the Great and Little Miami rivers were near or above flood stage and continued rain would cause flooding of lowlands.

The Whitewater River was reported below flood stage but rising.

More than a score of riverside cottages along the Great Miami between Cleves and Miamitown were evacuated as that stream rose rapidly.

The over-abundance of water was causing some troubles in the Ironton area some 130 miles upstream from Cincinnati and close to Ohio's southernmost tip.

An underpass on U.S. 52 between Ironton and Portsmouth was filled with water, forcing a detour. Nearly 1½ feet of water covered the intersection of Ohio 75 and Ohio 522 about 12 miles north of Ironton. Ohio 141 was closed at Wilgus and Ohio 217 was closed at Linnville by the heavy runoff.

There was one-way traffic on Ohio 75 about 1½ miles north of Ironton because of a shale slide resulting from the heavy rain.

Russians Overdue For Space Spectacular

By JAMES MARLOW

Associated Press News Analyst

WASHINGTON (AP)—Now that the nation has honored astronaut John H. Glenn Jr.—and itself through him—it had better get ready for some fresh jolts to its ego.

Glenn's journey gave the nation's morale a needed boost, since this country's prestige and self-confidence had been somewhat fractured by Soviet achievements in space. So his success was nationally shared.

It's a good bet new jolts will come from Russia which is still ahead in manned space shots, including Glenn's triple orbit.

The Russians not only put the first man into orbit, a once-around journey, but a second one went around 17 times.

It may be 1963 before the United States can orbit a man that often. This country hopes to fly five

orbital missions this year, the last one to go the Russians one better with 18 orbits.

The United States has done better with satellites.

Although the Russians were the first to send a satellite around the earth—Sputnik I—this country has more than caught up with them in total numbers in the satellite field.

So far the United States has sent 63 scientific satellites into earth orbit and three around the sun. The Russians have put 13 satellites into earth orbit, two around the sun, and hit the moon with another.

As a result this country has collected far more scientific information about what goes on in space than the Russians.

Still, that first Sputnik, the first man-shot, and the first moon-shot got more attention and propaganda mileage than the more useful and numerous American satellites.

Since the Russians' last manned space shot with Maj. Gherman S. Titov was last August—when he orbited 17 times—they seem overdue for another sensation.

And, because they're ahead, it seems likely they would hit the moon with a man before the United States can. The Russians, who like space spectaculars, would score their biggest with a man on the moon.

That Glenn has excited and stimulated the nation to greater efforts was clear from the extremely enthusiastic greeting given him by the President, Congress, the Supreme Court, and people lining the streets for Monday's big Washington welcome.

The two giants in this contest in space and national prestige could accomplish a lot more if they pooled their space efforts. President Kennedy and Premier Khrushchev said pooling is a fine idea.

But both sides will have had time to build bicycle factories on the moon before they ever agree to cooperate if they have as much trouble agreeing on this as they have had on disarmament and nuclear testing.

Army Rangers Attend Soggiest Classroom

Standing thigh deep in water (above) an instructor lectures Ranger candidates sitting in bleachers on survival and military operations in swamp and jungle areas.

Scene is the U.S. Army's Florida Ranger Camp. Right, putting the lesson into practice, a soldier forces his way through the treacherous swamp. This training is the jungle phase of the nine-week Ranger course. Initial toughening up and tactical training take place at Ranger headquarters at Ft. Benning, Ga.

A third phase concentrates on survival in mountain regions. Each year, 1,400 men complete the course to become highly professional, all-terrain fighting men. Since the Rangers no longer operate in groups, the graduates are integrated into combat units which are scattered throughout the Army.

Man Kills Wife, Self, Two Others In Shooting Spree

WOODSFIELD, Ohio (AP) — Richard Leasure, 40, wanted his estranged wife to accompany him to Florida. Her refusal touched off a shooting spree by Leasure Monday in which four persons, including Leasure and his wife, were killed.

Authorities ruled the shooting at the home of Mrs. Leasure's parents in nearby Marr a triple murder and suicide.

Sheriff Francis Sulsberger gave this account: Leasure came to the home of Mr. and Mrs. Frank Osborn, where his wife, June, 32, had been living, in hopes of a reconciliation. When the woman refused to go with her husband, Leasure went to his car and brought back a .38 caliber revolver.

Frank Osborn, 52, became the first victim when Leasure shot him down in the kitchen.

Mrs. Osborn dashed upstairs and Leasure fired a shot at her which missed.

A neighbor, Mrs. Hazel Gardner, 32, ran into the backyard but was killed when she was struck by two bullets.

Leasure then found his wife hiding in a closet. He dragged her to the front porch and shot her once. She struggled free and ran about 100 feet before being killed by two more bullets.

Leasure went to the body of his wife and then shot himself.

The couple were the parents of five children, ranging in age from 7 to 15. Mrs. Gardner was the mother of four.

Authorities were summoned by Mrs. Osborn after Leasure was dead.

DiSalle, McElroy Head Speakers At Democratic Parley

COLUMBUS, Ohio (AP)—Ohio's Democratic gubernatorial aspirants headed a list of 32 of that party's candidates for state office who appeared here Monday night at a Democratic meeting.

Gov. Michael V. DiSalle and Atty. Gen. Mark McElroy, who was the first to enter the governor race, parried with verbal swords as each of the candidates spoke briefly before the meeting of the Democratic Executive Committee and county chairmen.

McElroy, who has been endorsed by the party's Cuyahoga County committee, asked:

"Do you want four years of state Democratic leadership that has demonstrated its inability to develop cooperation with the strongest Democratic area in the state of Ohio — the area where statewide candidates can win or lose by the majorities involved?"

DiSalle, however, in his turn at the speakers platform, emphasized that in the 1958 primary battle he lost Hamilton, Franklin, Mahoning and Cuyahoga counties but swept to victory in the general election.

After reviewing his record, the governor said:

"It is easy to criticize. It is easy to be personal in attacks. It is easy to question the sincerity of a person. It is easy to say a person is indecisive, but the record is here to examine."

Earlier, McElroy had chided the governor for what the attorney general called indecision on whether to run for reelection.

On Oct. 20, 1961, DiSalle announced he would not run and stood pat on that decision until Jan. 12 when he entered the race.

"The easy way out for me would have been to bow out of the race for governor and file for attorney general," McElroy asserted. "This would, however, have found me guilty of the same 'indecision' that marked the governor's conduct."

McElroy announced his intentions Nov. 22.

"If I didn't feel that the nomination of my opponent (DiSalle) spelled defeat for the entire ticket, I would be happily running for attorney general today without opposition," McElroy said.

Precautions Curb Poisoning

Children under 10 were involved in almost all of the 2,500 accidental poisonings and the 20 fatalities reported to the 364 centers of the National Clearinghouse for Poison Control (Washington 25, D.C.).

Alarming as these figures may be, they do not begin to reflect the extent of the problem since vastly more poisonings and fatalities must have been unrecognized, unreported or actually concealed.

In most instances, the swallowed poisons were candy medications, cleaning agents and insect killers. The list also included kerosene, bleaches, disinfectants, agricultural chemicals, dry cleaner, fire extinguisher and lighter fluids and lye.

Here are some suggestions that may help prevent an accidental poisoning in your home:

If you are dependent on candy medication (aspirin, laxatives, etc.), store supplies on a high shelf in a locked bathroom cabinet.

DO NOT KEEP a ready supply of kerosene or other household liquids in beverage bottles that have been emptied of a child's favorite drink.

Store household and garden chemicals in locked kitchen closets and hang the key beyond reach of a child standing on the highest chair.

On slightest suspicion of a poisoning, induce vomiting by tickling the child's throat. If unsuccessful, give a cupful of warm water containing 1 teaspoonful of

mustard. If your efforts fail, fill the stomach with milk, warm tea or olive oil.

Place a call to your doctor. If he cannot be reached or cannot come to your home, take the child to his office or clinic or to the nearest hospital. If you know the location of a neighboring Poison Control Center, phone for instructions.

If you are at a loss to know what to do, call the police who will provide immediate assistance.

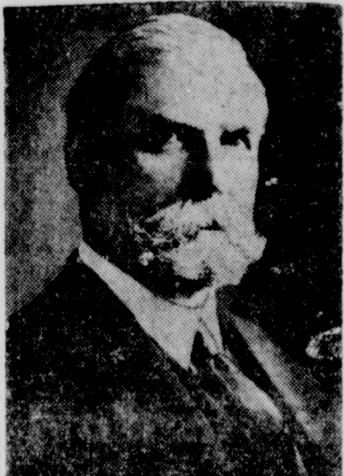

BE SURE to retain the container from which the suspected poison was taken. This will help identify the substance and may give some rough estimate of the amount of the dose swallowed.

Since some poisons like bichloride of mercury do not produce toxic symptoms for some hours, do not be lulled into a state of false security by the apparent well-being of the poisoned individual.

Because a fair number of poisoned children are "repeaters," redouble safety precautions after the first experience. If the incident appears to be but a single manifestation of some more basic personality problem, seek immediate help from a psychiatrist or a child psychologist.

Nationwide Puts Life Insurance Within the Reach of Every Family

Quantity Discounts, Bigger Dividends Help Lower Costs

Among Nationwide's most popular features are (a) "quantity discounts," which progressively lower premiums on each \$1,000 of life insurance over \$4,000, and (b) increased dividends.

In addition to early cash and loan values, young family men particularly like our Guaranteed Insurability Option. This assures the right to buy additional insurance later on, without medical examination, regardless of health.

Also available as optional extras are Double Indemnity, which doubles a policy's face amount in the event of accidental death, and Disability Waiver of Premium, which cancels premiums falling

due after a policyholder has been disabled by accident or illness for six months.

With every Nationwide policy you have a broad selection of settlement options. Many of these allow benefits or cash values to be paid in a choice of annuity-type installments.

The above features, and many more, guarantee you extra value through flexibility that lets your life insurance keep up-to-date with your changing needs and plans.

Your Nationwide agent, a neighbor in your community, is always at your service. He'll review your insurance program with you regularly to make sure its provisions always match your requirements.

Every family now can afford enough life insurance—thanks to Nationwide. Even fathers who think they're "insurance poor" will benefit from a talk with a Nationwide agent. His skill and experience, his interest in serving you best, and his complete range of modern coverages, will mean more protection and added savings for you.

Nationwide Life Insurance Plans Are Designed to Meet Every Need

Whatever your age, earnings and family circumstances, your Nationwide agent will recommend the plan—or combination of plans—that will do the best job for you. Here are just a few of the new Nationwide coverages offered:

For Young Families

For young fathers with limited budgets there's the MODIFIED 3 TO 10 PLAN. Especially designed for the "getting started" years, it offers sharply reduced premiums during the plan's first 10 years. Later, regular premiums are offset by higher dividends and accumulated cash values.

Also for young family men is Nationwide's FAMILY INCOME PLAN, which provides maximum protection during children's dependent years. Then, after the children are grown, your basic protection continues, but at a lower

premium. Many families, too, prefer the savings offered by Nationwide's all-in-one FAMILY POLICY, which insures all the family in a single plan. Dad has the greatest protection, while Mom and the youngsters are insured for smaller amounts.

For New Homeowners

For the homeowner, there's the low-premium MORTGAGE PROTECTION plan. Its face amount decreases gradually year-by-year, along with your mortgage—but there's always enough insurance to cover your unpaid balance.

Your Nationwide man is also equipped with a full line of streamlined ORDINARY (or WHOLE) LIFE and ENDOWMENT plans, which provide permanent protection plus cash values you may use at retirement. He also offers a choice of low cost TERM (or TEMPORARY) insurance plans, which

may be converted later to a permanent plan without medical examination.

Full details on all Nationwide plans are available through your local Nationwide agent. He has only one purpose: to provide you with the best protection at the lowest possible cost.

Your Nationwide Agent

Your neighborhood Nationwide representative is fully licensed under the insurance laws of your state. This means that his qualifications to serve you have been thoroughly examined and approved. In addition, his knowledge of life insurance and how it may best work for you is continually expanded through systematic training and refresher courses by Nationwide. Thus, you'll always find him a sound businessman and a valuable friend—and you may talk with him as you would your family doctor.

Progressive Organization Offers Complete New Choice Of Budget-Priced Policies

In keeping with its principle of providing the finest protection at the lowest possible cost, Nationwide Insurance recently streamlined its entire life insurance portfolio. The best features of standard policies have been retained, the range and scope of coverages broadened, new policies developed and set in a rate structure second

to none within the insurance industry.

Greater Values and Savings

Result? Budget-conscious families can now buy more of the protection today's cost-of-living demands. Young fathers can now afford the insurance they need during the family's growing years.

Today, through Nation-

wide, you can choose a plan which matches your exact requirements and your resources. Whether it's maximum coverage at lowest cost, systematic savings at a guaranteed rate of interest, or a realistic combination of protection and savings, your Nationwide agent has a plan for you. Every family can now have the vital protection they need while they save for retirement.

Nationwide Widely Known As A Company That's Different

Murray D. Lincoln, Nationwide's President, is often asked, "What's so different about Nationwide?" His reply usually begins, "Nothing much...if all you want is a company that collects premiums and has the resources to pay claims."

"But," he hastily adds, "if you're looking for something more—the satisfaction, say, of knowing that your premiums are buying insurance designed to protect real people rather than statistics...or

if you think it's a healthy idea for policyholders to have a real voice in their company's operation—then Nationwide is different."

"This organization was started thirty-five years ago by people in search of low-cost insurance. We grew, expanded our coverages, were invited into neighboring states, because our kind of insurance was needed."

"Nationwide continues to build on the fundamental principle that whenever we're confronted with new problems, all of us, working together, can find new and better solutions to these problems."

Expert Assistance Available

Nationwide also offers you—at no charge or obligation—the professional services of highly trained, experienced insurance agents. Since your local Nationwide agent offers a complete range of insurance products, he can recommend the life insurance policy which best fits your total protection picture. He can provide you with a coordinated, all-around protection program, with no dangerous gaps or costly overlaps, no needless waste or extras—all at minimum cost!

For full details, call your nearest Nationwide representative. He's listed in the "Insurance" section of your Yellow Pages.

Outstanding Values In Business Life Insurance

More and more executives, too, are selecting Nationwide plans for their companies' business life insurance coverage—including key man, sole proprietorship, partnership, and close corporation insurance. Individual-policy pension trust plans are also offered.

Especially advantageous to businessmen is Nationwide's Executive Equity Plan, which features rapidly accumulating cash values resulting in minimum net cost to the purchaser.

A complete range of flexible, low-cost plans is also offered on a group basis, customarily combined with group health coverage in a complete employee benefit program, often partnered with a funded retirement or pension program. Featured among

Nationwide's Group coverages are those especially designed for smaller organizations. Available in most states are: MINIGROUP, a top-benefit plan for firms having 10-49 employees, and EMPLOYEE FAMILY PLAN, a "big company" employee-and-dependents program for groups as small as three.

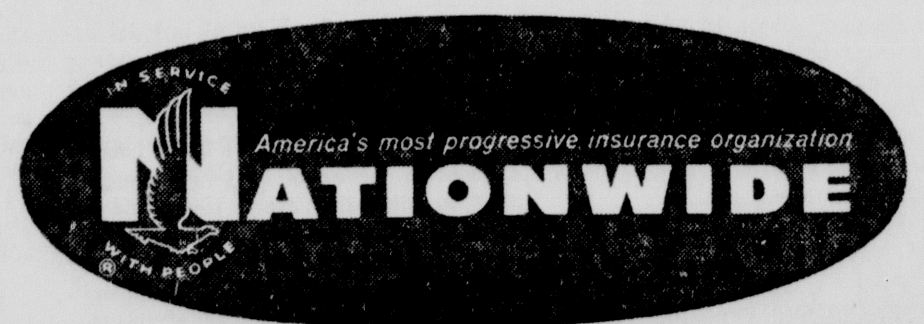

Also noteworthy is our small-company Retirement Security Plan (RSP), which can provide stockholder-employees with up to \$96,000 cash—or \$670 per month—at retirement, with all rates and benefits guaranteed for life.

All Nationwide agents are authorized to offer business life insurance protection, and all are backed by experienced Nationwide technical specialists, both at the Home Office and in the field.

When We're At Our Best

In the hearts and minds of all of us since those tense hours last week while we waited for Col. John Glenn to return safely from his orbital flight something has been trying to find expression.

Gifted commentators have put it into words. President Kennedy put it into words at Cape Canaveral last Friday when he said he boosters in the United States man-in-space program may not be as large as some others, "but our men and women are."

He was talking about the superb teamwork of thousands of Americans. He was referring to the cooperation between nearly every element of American society that had brought the nation's man-in-space program this far in three years and will carry it forward at an accelerated rate from now on.

Col. Glenn had referred to the same thing, calling it a joint effort by a cross-section of America — a slice of Americana. He was only the figurehead — the visible result of what had been the greatest combined effort since the Manhattan Project that produced the A-bombs used against Japan at the end of World War II.

THIS IS WHAT many of us would like to be able to talk about at this stage of a program whose purpose is still veiled for most of us. We are not certain what the government is doing through the National Aeronautics and Space Administration, but we are certain that in doing it we are gaining satisfaction that has been rare in recent years.

It is related to the satisfaction that management and workers had during the war when they were singled out for "E" awards — E for Excellence. It is related to the

satisfaction we had in school when we mastered a difficult subject. We may not know why we want to be part of a project to send a manned rocket to the moon, but we know that if it can be done we will hold our heads higher.

Is it because Americans, though we have accomplished so much, share with Russians the need to accomplish something more in the mid-20th century than merely to maintain day-to-day living?

Is it because the conquest of the frontier, the sharing in victory in two great wars and the recovery from postwar dislocations made the frustration of an indefinite cold war seem unbearable?

Is the challenge of space exploration and conquest what Americans need at this moment in history to revive their confidence in themselves? Is this, perhaps, the ultimate and the last frontier — the ultimate challenge?

WHATEVER IT IS — and it probably is a little of everything — it is gratifying to be part of it. There may even be a trace of escapism in it. At last there seems to be something men can dream of doing besides over-running one another's living space, or turning it into a cinder-carpeted desert.

At the close of last week, Col. Glenn and his charming family retired from the spotlight. The man-in-space program is going on with even greater zeal, thanks to its success so far.

Something even more important than the man-in-space program is moving forward at an accelerated pace — American confidence.

There Must Be a Better Way

What accounts for the way the United States keeps repeating the same mistake in regard to the Soviet Union?

What makes it act like a rat that learned to make a wrong turn in a maze and always turns the wrong way at the same place?

The Soviet Union hints at joint efforts to explore outer space.

The United States replies that it will make proposals for outer space cooperation in the near future.

Does anyone doubt what will happen next? The United States will make its proposals, there will be a long, frustrating chewing

match and the Soviet Union will reject the U.S. proposals.

The rejection will cause hard feelings. Once more the Soviet Union will have demonstrated to a watching world that it at the opposite pole — that it is the hope of all nations which disagree with the United States.

Once more the American people will be left with the impression their negotiators are bubble-heads who run around in diplomatic circles, never getting anywhere.

What would be wrong for a change in letting the Soviet Union make the firm proposals so the United States could turn them down?

The next time he Kremlin suggests a summit conference or cooperation in outer space, what would be wrong in waiting a week, then replying, "We're waiting. What do you have in mind?"

Just once, why not cross 'em up by doing the unexpected?

Women In CD Work

Salem women associated with the Civil Defense program have arranged for a seven-week course in home preparedness, to start March 12 at City Hall.

This is a vital phase of our over-all preparedness program, and it should behoove us all to take more interest in the welfare of our families, rather than the lukewarm glance of apathy that is our normal response. Women can and are playing an important role in disaster work. They possess the natural, humanitarian touch and those who are spearheading this effort at home preparedness are to be commended.

Word of Caution

Despite the fact that the ground is just plain soggy and creek banks are overflowing, the Ohio Division of Forestry has issued its annual reminder that the Spring forest fire season begins Thursday.

No individual is allowed to kindle a fire outdoors in woodland areas without first obtaining a permit from one of the many fire wardens in the Columbiana-Mahoning County District. March winds often times dry things in a hurry, thus increasing the danger of a fire.

Once Over

Luke Esterhazy has come into an inheritance and will now be able to take the wife and kids to dinner.

Chet Williams has just finished week's work painting a small door for the Joe Burgers.

Phineas Galloway got a bank loan and plans to buy a book at current prices.

Abe Hassam has pneumonia through following President Kennedy's idea about hats.

Mrs. Gilette Purdy missing three days, was found in a doctor's office where she was just waiting for her turn.

Tillie Perkins got into the front row at a football game and had her legs and knees telecast on screens all over the nation.

Rick Schultz is laid up for spinal treatments, following an attempt to do the "Twist."

Mr. and Mrs. Caleb Cripps plan to have a vacation in the tropics, if Mr. Cripps can get named on some labor delegation.

"Snokey" Wizzell, who spent the last five years in dramatic school, is doing well on a coast-to-coast beer commercial.

Yancy Booley sent back the birthday necktie from his mother-in-law for fear it would amount to a violation of the ethics code, because he is involved in question of "closing the guestroom."

Wilbur Pitts put on his storm-tires unassisted and is eligible for the Man of the Year Award.

Jed Frisby has been suspended from the Rotary Club for sleeping during club speeches, third offense. One more time and he loses his membership.

Eph Stribbey, a ur local psychiatrist, is

thinking of going into a business either he or his clients will understand.

Judge Otto Bootsey who jets reckless auto drivers off on probation was knocked down and run over by one of them on his way to court last week.

Deke Peters who has been busy fixing up leaks in the dream house he bought a year ago expects to have the place fit to live in within six months.

Cal Hostettters who got his repair bill from a service station is resting as comfortably as could be expected.

Stew Chidsey lost his girl off the rear seat of his motorcycle rounding a curve on the edge of a mountain last night. He will pay a reward if returned in good condition.

Duke Winterbottom's car was smashed up leaving a church parking space Sunday immediately following the sermon on charity and brother love.

We like "shecky" Green's line "I've been taking Reader's Digest course in word improvement. I learned maudlin, innocuous and inane, but they're too hard to work into a conversation."

"Candid Camera" had one of its funniest episodes in picture of bowlers playing on alley so wired that every pin would go down. When wife, taken bowling by husband for first time, got a strike on poorly thrown ball first time up, the husband smilingly approved, as matter of routine encouragement. But his switch of expression when she did it third and fourth time when the ball almost went into alley was something to see.

Inside Labor

By Victor Riesel

The old gray mane is still what it used to be. A little whiter perhaps. But a crown of dignity on a giant of 82 who is sadder now.

These are melancholy days for John L. Lewis but as always he looms over the future of the land.

Even now as he wanders over the highways of the nation — as he has so many times in the past — his physical absence from Washington has not left the capital or the nation empty of his impact.

"Mister" Lewis — and who among us would ever say "John" — is off on vacation. But one of his strategems has been — independently of course — put forth by Arthur Goldberg in the secret efforts to forge peace without pain in our time on the steel front.

The labor secretary believes this stratagem can avert industrial civil war. For it is a proposal for a pact without a built-in guaranteed tri-annual wage crisis such as those which have hurtled the country into recessions in past years.

QUITE PRIVATELY President Kennedy's labor advisor has suggested to leaders of the big steel union and national steel industry that they sign "an open end contract." That is — an agreement with no termination date. It can run for a year. It can run for 10. Both sides like the thought. Why not?

In a hundred mine patches the steel worker is the brother of the coal digger. In the financial communities the steel owners are

the brethren of owners of coal mines.

And on the coal front, the open end contract has worked for 12 years. There is peace now where once there was such bitterness that we called one Kentucky county "bloody." And when some of us newsmen went down to cover a strike the sheriff's men put guns in our guts and told us to get back on the bus.

"Coal" always was rough. Lewis' orders cut the black fuel. Cities browned out. Presidents of the United States from Roosevelt to Roosevelt, and even Harry Truman quaked just a little when the miners roared.

Then came 1949. The United Mine Workers and the pit owners threw the book — and lots more — at each other.

Everybody sued everybody. Lewis permitted his men to go down in the shafts only three days a week — the part time strike.

ON THE EVE of Korea crisis in the mines was coming. The coal contracts expired on June 30, 1949. Negotiations had begun in May and continued to March 1950. For 10 months man hated man on this front.

Then in March Lewis and the owners — under the careful counseling of a masterful mediator Dave Cole (now behind the scenes in steel) — signed an open end contract. Here's how it was worked out:

It had to run for at least a year. Then one minute later, the union of the industry could give 60 days notice of termination. But neither side had to. There was no built-in crisis date so there would be no build-up of steam.

The rank and file would not be called to meetings to work up demands. We newsmen would not feel compelled to hit the story hard. There would not be any

stockpiling. There would be no grandstanding.

Between 1952 and 1955 neither side gave notice. The duistry was in bad shape. The miners knew they had as much as they could get without putting the heel to their bread and butter.

Then there were some negotiations. But not because John Lewis felt compelled to set a contract deadline. He could afford to study the economy of the industry and the land.

THERE HAS BEEN no contract negotiation since 1958.

Instead labor and industry work through something called the National Coal Policy Association headed by a jovial chap called Joe Mooney.

Once he represented a refrigeration firm and John L. mocked him as an "icebox salesman." Today they are comrades in arms. For, the union and the mine owners and the coal consumers — such as the railroads, the stripping firms and the utilities — sit together, plan together, fight together on the Hill for needed laws, battle together against foreign competition.

This I believe, is, in effect, that the White House has proposed to the steel industry and steel labor. Both sides in coal couldn't lick each other. They joined each other. Both sides in steel want no further strikes or crises.

The suggestion from on high is that they join each other. Take the automatic crisis date out of the contract. Don't create a deadline for passions. Leave time to study the economy of the steel business, the needs of the workers — and, above all, the needs of the land.

There have been 12 years of peace in coal. Certainly the furies inside steel also can be tempered.

ANSWERS YOUR PROBLEMS

Forbidden Smokes

Dear Ann: I am a 17-year-old high school senior. My grades are good. I am considered popular and pretty. School always has been fun for me.

My life is fine — wonderful parents, plenty of good friends, good books, music, nice clothes and so on. I use the family car now and then and we all get along fine, except for ONE thing. When it comes to smoking my parents will not budge.

They refuse to allow me to smoke even in the privacy of my room. All my friends smoke. When I tell them I feel like a sixth toe they say: "We aren't responsible for the other kids. We are responsible for YOU. The answer is no."

I don't want to pick up the smoking habit. All I want is permission to smoke socially — just a few cigarettes when I am out with the crowd, or after dinner when I'm with a date.

Our minister's son smokes. My teachers smoke. Some of the nicest people I know smoke. Please, Ann, come to the rescue. —MISS 17.

PS: Do YOU smoke?

Dear Miss 17: I don't smoke and I never did. But this hasn't anything to do with being nice or not nice, good or bad.

The smoking question boils down to common sense. In my opinion, smoking is an unattractive, dirty, expensive habit. It has been proved by medical authorities that heavy smoking can be damaging to the health.

The transition from "social smoking" to habitual smoking can sneak up on you, and before you know it you're hooked. I say you are better off without the weeds.

Glenn's Trip Another Sensational Achievement

What do "firsts" really mean? Time was when Lindbergh was the first to fly alone non-stop across the Atlantic to Paris. Who remembers the year and that it took him 33 hours?

Today, it is routine to fly the Atlantic to Paris in seven hours. Maybe it soon will be routine for people to take a world cruise in the skies on Sunday afternoon and go around the earth in 90 minutes.

What, however, really compares with the sensational reaction of the American people to the feat of Lt. Col. John H. Glenn circling the globe three times in one day? Probably the most thrilling moment the American people ever experienced previously was the announcement that a cable had been laid successfully in the Atlantic Ocean to Europe on Aug. 10, 1858, after repeated attempts had failed in prior years.

While the flight around the world by Col. Glenn doesn't immediately change the life of a single person here or abroad, the laying of the Atlantic Cable affected at once peoples on both sides of the ocean.

Prior to that time, it took many weeks to get a letter by boat to relatives in Europe and many more weeks to receive a reply.

The anxieties that were felt when members of the family were ill can hardly be described even in retrospect.

The most graphic statement of the emotions of the American people after the laying of the Atlantic cable comes from the pen of George Templeton Strong, a famous New York lawyer whose diary was published by the MacMillan Co. in 1952 — a half century after his death. He wrote:

"Aug. 10, 1858 — everybody all agog about the Atlantic cable. Telegraph offices in Wall Street decorated with flags of all nations and sundry, fancy pennants suspended across the street. Newspapers full of the theme and of the demonstrations the event has produced from New Orleans to Portland."

"Newspapers vie with each other in grandiloquence. Yesterday's 'Herald' said that the cable — or Cyrus W. Field — is undoubtedly the angel of the book of Revelation with one foot on sea and one foot on land, proclaiming that time shall be no longer. Moderate people merely say that this is the greatest human achievement. . . .

"If no great revolution or cataclysm throws mankind off the track they've been traveling for the last half century, if the earth

doesn't blow up or get foul of a comet, it will be a strange place in 1958, most unlike it is now. The diverse races of men certainly seem tending toward development into a living organic unit with railroads and steamships for a circulating system, telegraph wires for nerves, and the London Times and New York Herald for a brain."

THE WILDEST enthusiasm reigned in the old world and the new on that day as copper cable was laid beneath the ocean from Ireland to Newfoundland. Three times the cable had broken. But when success was finally achieved Queen Victoria and President Buchanan "exchanged messages amid jubilant celebrations," and the book reports that "so many fireworks were let off in New York City that the City Hall caught fire."

What other "firsts" proved sensational? Certainly the introduction of the telephone was received with more enthusiasm than the telegraph. The great advances of mankind that have occasioned the biggest celebrations have been in the field of communication. While perhaps of more benefit to individuals, the discovery of a cure for each of the many serious ailments of man have hardly occasioned the public celebrations or outbursts that have attended the spectacular feats in communication.

Effective propaganda will be derived now by the United States from the flight around the world by Col. Glenn. It puts America on the front pages of newspapers all over the world. It even causes Soviet Premier Khrushchev to get in on the worldwide publicity act by his sanctimonious offer of co-operation hereafter with the United States in space ventures.

AGAIN AND AGAIN the United States government has sought to cooperate with the Soviet Union in scientific experiments. At the very session of the United Nations when Nikita Khrushchev took off his shoe and banged away, President Eisenhower proposed to the U.N. General Assembly that no nation should "put into orbit or station in outer space weapons of mass destruction" and that "international cooperation for constructive peaceful uses of outer space under the United Nations" should be agreed upon.

The Soviet government has repeatedly promised to furnish information about what it is doing in outer space but has failed to follow through with its promises. Maybe some day there'll be another "first" to record — when the Soviet government promises something and then keeps its promise.

Disguised as a Theory

By TRUMAN TWILL

I was saying when space ran out yesterday that my most memorable teacher was a professor who taught us in his economics course about the theory of socialism, then blew the proposition sky-high by telling us it wouldn't work because it was contrary to human nature.

Without being conscious of doing anything out of the ordinary, this man was teaching us what was wrong with communism, which is the modern name for socialism. But because he was teaching in a voluntary school not controlled by political ideologists, no one gave it a thought. He was ahead of his time.

It isn't going to be that easy when teachers try to tell modern kiddies about communism as part of a public school education. It is going to be one of the most fantastic mixups in education since Charles Darwin threw the theologians off their stride.

Which theory of communism will the teachers make clear to the moppers — the Marxist doctrine, the Albanian, Chinese, Stalinist, or Khrushchevsky?

And when they make comparisons between communism and capitalism, what theory of capitalism will they teach — Laissez-faire, state, profit-and-loss, enlightened, unlighted, limited or unlimited?

Where will they find texts for teachers who otherwise wouldn't be able to talk off the cuff longer than 30 seconds about this subject?

Where are they going to find teachers who will take their professional lives in their hands to explain to kids something that not even the most sophisticated people alive can talk about without flying at each other's throats?

What guarantee will these pigeons have against being tossed up for target practice mentally disturbed taxpayers and politicians the next time they feel like shattering a reputation?

And coming to the sharpest point of the tragic confusion about to be explored, is the anti-communist world really prepared to deal with the consequences of coming to grips with the paradox of communism — this credo that

never has been tried anywhere except in a few isolated communities in America yet is said to be controlling hundreds of millions of boobs who wouldn't know dialectical materialism from a squeeze-bottle?

Tell everyone you read it here first — that what now passes for communism — what used to be called socialism — is an endless series of countermeasures made up on the spur of the moment to take ruthless advantage of the weaknesses of human behavior and disguised as a theory. Don't believe the label on the bottle.

Socialism in Britain is one thing, another in Mexico, still another in Cuba. It was one thing under Stalin and would have been another under Trotsky. It's one thing in China under Mao Tse-tung and another in Russia under Khrushchev.

Norman Thomas has one version, Mussolini and Hitler had other versions. Oh yes, those cuties were socialists, they said. What they were, though — what all socialists essentially are must be likened to hyenas and jackals waiting for society to relax its guard so they can feast on its failure.

What needs to be studied isn't communism, which is whatever it needs to be to get hold of the throats of people itching for a change because things aren't going well. What needs to be studied is human psychology to keep things from getting into such a mess people will shrug and say, "Nothing could be worse than this — could it?"

Deaths, Funerals

Harry Montfort

COLUMBIANA — Harry Montfort, 92, of Columbiana died of a cerebral hemorrhage at 1:30 a.m. Monday at the Gregg Rest Home in Salem where he had resided about six weeks.

He was born Jan. 30, 1870, in Gettysburg, Pa., a son of Mr. and Mrs. John Montfort.

He married Eva Hall in 1909. A member of the Columbiana Methodist Church, he formerly belonged to the Gettysburg Presbyterian Church. He was a member of the Modern Workers of America of Gettysburg.

Besides his wife at the home he leaves a daughter, Mrs. Forest Stock of Columbiana, and three grandchildren.

Funeral service will be at 10:30 a.m. Thursday at Warrick's Funeral Home, with Rev. George Sweeney of the Columbiana Methodist Church officiating. Friends may call at the funeral home Wednesday evening.

Mrs. Norman Klitz

COLUMBIANA — Mrs. Daisy Ellen Klitz, 79, of 1 N. Main St. died of complications at 5 p.m. Monday at Salem City Hospital following an illness of three months.

Born in Unity Township June 17, 1882, she was a daughter of Henry and Tishey Faulk Crum. She had lived all her life in the Columbiana area and was a member of the Emmanuel Lutheran Church in Columbiana.

A life-member of the United Lutheran Church Women, she was employed as housekeeper by Walter Hartox.

She married Norman Klitz Oct. 7, 1903, and he died August 1940. Survivors are a daughter, Mrs. Wilmer Davis of Columbiana; a son, Henry A. Klitz of East Palestine; a sister, Mrs. Goldie Wolfe of New Middletown; six grandchildren and three great-grandchildren.

Services will be held at 2 p.m. Thursday at the United Lutheran Church, with Rev. William Zimmann officiating. The body will lie in state one hour before the service.

Burial will be in Petersburg Cemetery.

Friends may call Wednesday evening at the Seederly-Beihart Funeral Home in North Lima.

Suits Totaling \$64,500 Filed In Auto Mishap

LISBON — Two personal injury suits totaling \$64,500 were filed in Common Pleas Court Monday by parents of two children injured Feb. 25, 1960, in an auto-truck crash fatal to the driver of the car.

The Columbiana County Retarded Children's Committee and Atty. Charles Pike, 37, of N. Park Place were named defendants.

The suits were filed by Mr. and Mrs. Joseph Sevenich of Walnut St., Leetonia, who ask \$32,500, and Mr. and Mrs. Ray Grim of RD 1, Homeworth, \$32,000, in behalf of their children, Michael Sevenich, 19, and Susan Grim, 17.

Each of the young people sustained a fracture of the leg when the car in which they were being transported home from the Retarded Children's School collided with a milk truck driven by Kenwood Blim, 22, of Louisville. The auto driver was Virgil Grissinger, 46, of RD 1, Salem.

The accident occurred on County Road 804, about two miles east of the Columbiana-Stark line.

Two Soviet Heroes 'Invent' Sexy Chess

MOSCOW (AP) — Mikhail Botvinnik, the current world champion, and Vasil Smyslov, the ex-champion, returned to their customary silent, serious chess matches today wondering if they had changed the whole approach to the game.

The two grand masters played a match Monday before a crowd of 15,000 in Moscow's indoor arena using shapely ballerinas as human pawns. Half were dressed in white, half in black and all wore bright red stockings. Others represented kings, queens and castles on the huge chess board which covered the floor.

Botvinnik and Smyslov solemnly went through the motions of the match. Each time one would decide on a move one of the ballet dancers would gracefully pirouette into position.

When it was all over, a draw was declared. Neither player was saying whether he enjoyed the experience.

Glenn

(Continued from Page One)

"Glenn's day." To him it was "our" day—his wife's and his fellow astronauts.

Standing at the podium before a joint meeting of both houses of Congress — some members holding children in their laps — Glenn said humbly:

"We are just probing the surface of the greatest advancement of man's knowledge of his surroundings that have ever been made."

There were tears in the eyes of his wife and mother, Mrs. John H. Glenn Sr., as the Congress, the Cabinet and the black-robed Supreme Court rose to acclaim him. Glenn spoke with poise and easy humor. He introduced his parents, children and wife and they were cheered as they stood in the gallery.

Glenn brought the house down with a humorous reference to Caroline Kennedy, 4, who had asked him earlier, "Where's the monkey?" He said her concern over the chimpanzee astronaut who preceded him into space "really cut us down to size and put us back in the proper position."

But Glenn had serious words as well.

He paid high tribute to his fellow astronauts and the thousands whose tasks backed up the Mercury flight.

"From the original vision of the Congress to consummation of this orbital flight has been just over three years," he said. "This in itself states eloquently the case for the hard work and devotion of the entire Mercury team."

Glenn smiled and shook a hundred hands as he made his way out of the Capitol, down the broad steps and off to a luncheon at the State Department. Excited children of some members got a special grin and a few personal words from the first American to orbit the earth.

Finally it was home again where a noisy homecoming celebration with about 750 persons jammed about the house.

After his family filed into the house, Glenn made a short front-stage speech.

"Coming home to you is like coming home to home folks," he said.

But there was no day off today. Glenn had an appointment to appear before a congressional space hearing.

PAY FOR DOGS KILLED

LISBON — Columbiana County commissioners Monday authorized the payment of \$49 to Wellsville for 98 dogs destroyed there in February. The commissioners' next meeting will be Thursday from 10 a.m. to 4 p.m.

Girl, 4, Injured In Two-Car Crash

A four-year-old RD 1, New Waterford girl was hurt in a two-car accident on Rt. 30, four miles west of Lisbon, at 1:15 p.m. Monday.

The child, Monette Cope, was treated by a Lisbon doctor for abrasions over her right eye. She later was brought to Salem City Hospital for X-rays.

The girl was a passenger in a car driven by her mother, Mrs. Marjorie Cope, 27. According to the Patrol, Mrs. Cope was driving west on Rt. 30 when a car operated by Kenneth E. Ferguson, 22, of RD 1, Lisbon, pulled off a side road into the path of her auto.

Ferguson was traveling south on County Road 412 and was attempting to make a left turn when he drove in front of the Cope vehicle, police reported. Ferguson was arrested for operating an unsafe vehicle.

County Heart Fund Drive Nets \$6,460

Twining Hiscox of Lisbon, president of the Columbiana County Heart Association, announced today a total of \$6,460 was collected in the county Sunday for the heart fund.

Totals from the cities and townships are: Salem, \$650; Lisbon, \$595; East Palestine, \$671; New Waterford, \$96; Wellsville, \$650; Salsineville, \$243;

talks with a Soviet delegation on renewing the U.S.-Soviet cultural exchange agreement for another two years.

The new cultural agreement, at its present stage of negotiation, was said to provide for appearances of high public figures on radio or television either in person or recorded. The Kennedy-Khrushchev exchange would be taped or filmed.

The general cultural exchange accord for 1962-3, like its predecessor, is expected to cover a broad range of visits between the two countries of performers, scientists, specialists, teachers and students, and a swapping of films and exhibitions.

U. S. authorities expressed hope that the State Department negotiations, under way since Jan. 31, would produce an agreement with the Russians this week.

Three Men Sentenced In Juvenile Court

LISBON — Three men were sentenced to jail Monday by Juvenile Court Judge Louis Tobin on charges of contributing to the neglect and non-support of their minor children.

Albert E. Rosenbaum, 45, of East Liverpool received a six-month term for contributing to the neglect of his children.

William (Billie) Crum, 27, Lodi, N. J., was given six months for non-support of his minor child, and Richard Paul McAfee, 27, Dover RD 1, six months for non-support of his two minor children. The latter will be released from jail providing he can furnish a \$1,000 cash bond guaranteeing the payments, Judge Tobin said.

Negley Driver Fined, Jailed In Drag Race

EAST LIVERPOOL — Gordon Levan Reynolds of RD 1, Negley, who admitted speeding up to 125 miles an hour early Sunday on the East Liverpool-Wellsville Rd., was given a 60-day term in the County Jail, fined \$200 and costs and had his license revoked for 6 months after being convicted by Municipal Judge Samuel M. Chertoff yesterday on a drag racing charge filed by Wellsville police.

Pedestrian Struck By Auto, Injured

Tony Nocera, 71, of 311 W. 9th St., suffered bruises of the left hand and right shoulder when he was struck by a car and knocked to the pavement as he walked across E. State St. at the S. Broadway intersection Monday at 1:04 p.m.

He was treated at the Central Clinic and released. Police cited him for jaywalking.

Nocera was struck by a car operated by Kalmon P. Lazear, 35, of Youngstown and owned by the Shaffer Car and Truck Leasing Co. of Massillon.

Police said Lazear was making a left turn off Broadway onto E. State St. as the traffic light showed a green arrow. They said Nocera was walking across the street against a red light and was in the middle of the intersection when he was hit by the left front of the car.

700 Persons at Community Concert

An audience of 700 persons enjoyed the concert presented last evening at the Junior High School Auditorium by the Eger Players, sponsored by the Northern Columbiana County Community Concert Association.

The ensemble, featuring French horn, piano, violin and cello, presented a recital of classical and modern selections, including compositions by Brahms, Frescobaldi-Cassado, Chopin, Bartok, Schubert and Prokofiev.

The association will present its final concert of the season March 11 when Donald Gram, bass baritone makes his initial appearance here.

Grange News

Willow Grove Has Program

A 50-year pin was presented to Bryan Sanor, who joined the grange Dec. 11, 1911, by master Vincent Domencetti at an "operation forward" meeting Friday night at Willow Grove Grange.

The literary program was in charge of Mrs. Harry Sherwood, lecturer. The program was as follows: Music, John Dermotta and Glenn McAfee; reading, "Our Presidents," Tom Sanor; "Lights Then and Now," Miss Eva Starbuck; love skit, women of the grange; surprise, "Egg in the Bottle," Tom Sanor, and reading, "Essay on Husbands," Vincent Domencetti. Lunch was served by Mrs. Lloyd Sanor and Mrs. Fred Roth.

A benefit card party will be held Wednesday at 8:30 p.m. at the grange hall. A questionnaire on taxes from the state grange was answered by members.

The next meeting will be March 9 when the youth of the grange will fill the stations.

Home Extension Leaders To Meet

LISBON — Leaders from approximately 15 local home extension groups will meet Wednesday for the first of a series of lessons on cotton dress making.

They will relay the information to their local groups. The leaders are scheduled to meet in the county agricultural extension office at 10 a.m. Succeeding lessons in the series will be held March 7, 12 and 16.

The lessons will be taught by Miss Julia Shank, county extension agent in home economics.

Two Youths Injured In Cycle Crash

Two East Palestine youths are in fairly good condition at Salem City Hospital with injuries received when the motorcycle they were riding collided with a car driven by an uncle of one of the boys on W. Market St. in East Palestine Monday afternoon at 12:30.

Injured were: Robert Boyles, 19, laceration of the right leg.

Walter Ashbridge, 18, laceration of the right knee and brush burns on both hands and right leg.

According to East Palestine police, Boyles was driving the motorcycle east on W. Market St. with Ashbridge as a passenger when they crashed into a car driven by Henry Ashbridge, of 574 W. Market St., an uncle of Walter's, who made a left turn into his driveway into the path of the cyclists.

After hitting the car, the cycle and its riders skidded along the pavement for 105 feet, police reported.

Walter Ashbridge is a son of Mr. and Mrs. J. D. Ashbridge of 640 Main St., East Palestine. He is a grandson of Walter A. Hunston, Columbiana County commissioner, and his mother is a nurse at Lisbon schools. Walter is a senior and star athlete at East Palestine High School.

Home Extension Council To Elect

LISBON — Officers will be elected and achievement day plans will be made when the Columbiana County Home Extension Council meets Thursday at 10 a.m. at the Christian Church, according to Miss Julia Shank, county extension agent in home economics.

Miss Anita McCormick, north-east Ohio extension supervisor in home economics, will be a guest.

The Home Extension Council is composed of three home councilors from each local extension group in the county.

All attending are asked to bring a coverdish and table service.

The Other Day

We learned some more facts about submarines that we thought interesting enough to pass along to you. It seems that prior to World War I the submarine saw very little actual warfare, but during that period it engaged in some pretty weird "set-tos," besides firmly establishing itself as a major weapon of modern warfare.

For example, there is the case of the British sub G-11 which was captured by an abandoned German balloon. It seems that while surfaced the sub tried to engage the balloon which was hovering nearby. Soon the balloon was directly overhead and so near the water that its trailing lines became enmeshed with the sub's screws. The sub then was helpless. It had to shoot down the gas bag and then work for hours to free its propellers before it could resume its patrol. Then there are the cases of the subs that were captured by cavalry, rammed by trucks, slugged it out with infantry, railway and field artillery. One sank an active zeppelin, and one was even attacked by a mad Turk in a rowboat.

As in our business, apparently anything can happen, and usually does, but when prepared for it, as we always try to be, we can give you top satisfaction in just about any situation. PARKER CHEVROLET CO., 292 West State St., Telephone ED 2-4684.

The Social Notebook

PHIATHEA CLASS of the First Baptist Church met Tuesday evening at the home of Mrs. Myrtle Hardin of W. 10th St., with 14 members present.

The meeting was opened with prayer by Mrs. Ray Hunter. Scripture and devotions were given by Mrs. Cletus Rowe using the theme, "Partners, Love and God." Program booklets were given to members.

A white elephant benefit will be the feature of the next meeting March 20 at the home of Mrs. Ben Kupka of 1715 Southeast Blvd. with co-hostess, Mrs. Loretta Adams.

MRS. DONALD BLASIMAN entertained 35 guests Thursday evening at a bridal shower honoring Miss Mary Callahan, bride-elect of James Blasiman.

Game prizes were awarded to Mrs. Edwin Geary, Mrs. John A. Blasiman, Mrs. Raymond Case and Mrs. William Seigenthaler.

Barbara and Nancy Blasiman assisted the hostess in serving refreshments from a table covered with a green cloth and centered with an arrangement of daffodils and lighted tapers of white in crystal holders.

Miss Callahan is the daughter of Mr. and Mrs. George Callahan of RD 3, Salem.

SALEM MUSIC STUDY CLUB in cooperation with the National and State Federation of Music Clubs is encouraging the study of American music in February.

Wednesday the club will meet at the Ruth Smucker House for a program honoring Edward Mac-

dowell, an American composer who was born 100 years ago. The topic will be "Parade of American Music." Mrs. Vesta King will give a paper and there will be piano solos, duets, vocal and marimba numbers.

Hostesses for the evening will be Mrs. Curtis Vaughan and Mrs. Raymond Mackall.

MR. AND MRS. WILLIAM STEVES entertained members of the Winsome Class of the Church of the Nazarene at their home, Saturday evening, with a smorgasbord supper for 10 members.

Devotions were read by Kenneth McNeal and the business meeting was in charge of Ed Shoff.

A discussion was held concerning a class project. Mrs. Robert Martin gave the standing reports. Games were the diversion of the evening.

THE BIRTHDAY OF Mrs. Richard Reed of Warren was honored when Mr. and Mrs. Charles E. Sarchet of Jennings Ave. entertained dinner guests Saturday evening at their home.

Attending were the families of Mr. and Mrs. Russell Reed Keefe of Wellsville, Mr. and Mrs. Frank Rowe of Sebring, Mr. and Mrs. James K. Sarchet of Wheatland, Pa., and Mr. and Mrs. Reed of Warren.

MISS BARBARA LOU JEFFRIES was honored at a miscellaneous shower Wednesday evening at the home of Mrs. Raymond Ross of Fair St. Hostesses were

Mrs. Kenneth Bosu, Miss Audrey Hendricks and Mrs. Ross. Prizes in games were awarded to Miss Janice Call and Miss Sandra Call.

Eighteen guests were served from a table centered with a miniature bride and bridegroom encircled with pink roses.

Miss Jeffries is the daughter of Mr. and Mrs. Robert Jeffries of E. 4th St. and will become the bride of Brent J. Thomas, son of Mr. and Mrs. T. R. Thomas of the Salem Youngstown Road, Thursday evening at 7:30 at the Southeast Friends Church.

New Decongestant Inhaler Opens Nose, Clears Head Easier Than Sprays, Tablets

Now, Vicks has developed a tiny, compact decongestant inhaler that opens cold-stuffed nose, restores free breathing as effectively as decongestant sprays and tablets. And does it far easier!
Sprays are bulky, messy. You have to take tablets with water. This new, improved Vicks Inhaler is so small you can carry it with you, so easy to use you can get breathing relief fast, the moment you need it, no matter where you are. Concentrated in Vicks Inhaler
are a special vaporizing nasal decongestant and 5 other aromatic medications. Just a few quick whiffs and you can feel these medications penetrate deep into stuffed nasal passages. Cold-swollen membranes shrink. Congestion starts draining away. Soon your nose opens. Your head clears. You breathe freely again.
From now on, get breathing relief fast when you need it. Always carry the new, improved Vicks Inhaler in your pocket or purse.

Lisbon Lions Get Council Approval On Street Fair

LISBON — Village Council Monday night gave permission to the Lisbon Lions Club to hold its annual street fair on the square.

Date of the fair may be changed to the last week in July instead of the last week in October.

Lions Club officials will meet with the village street committee to go over details as soon as definite dates are made.

Council discussed the stop lights in the village and the feasibility of converting them to blinkers after midnight. No action was taken.

Mayor Dean Stockman proposed that parking stalls around the square be widened. He said the spaces are insufficient for some of the larger cars. The street committee will study the situation.

Councilman Clyde Pike said he had received complaints of dogs and cats running loose in the village, and he asked Mayor Stockman to order owners of pets to keep them from running at large.

A discussion was held on parking spaces on E. Washington St., across from the R. Thomas Plant of the H. K. Porter Co. Council's street committee will check the location to ascertain if the spaces are smaller than in other sections of the village.

Councilman Raymond Dixon said the American Bridge Company of Cambridge checked the S. Market St. bridge going into Jordoville and gave the county commissioners an estimate of \$56,000 to replace the span over Beaver Creek.

Bills of \$6,399.28 were ordered paid. Council's next meeting will be March 12 at 7:30 p.m.

Real Estate Tax Funds To Be Distributed

LISBON — County Auditor Kenneth Bell said today that an advance payment of funds collected in the first half of 1961 real estate taxes will be distributed to subdivisions on Thursday.

He said the advance payments will total \$665,000 and will be distributed to enable some subdivision to refrain from borrowing.

Appeal Filed In Franklin Merger Issue

LISBON — An appeal has been filed with the 7th District Court of Appeals against the ruling of Common Pleas Court Judge Raymond S. Buzzard allowing the entire new Southern Local School District to vote on permitting Franklin Local District to join the Carroll County School District.

Fred Johnson of Summitville asked for a vote by Franklin residents after the Columbiana

County Board of Education merged Franklin with the former Southern Local School District.

However, Judge Buzzard ruled that residents of the entire new district could vote on the issue.

The Columbiana County Election Board was to award a contract for printing of ballots for the election but canceled its plans when it learned that an appeal would be filed.

It is not known if this case will be heard when the Court of Appeals holds session in Lisbon March 6, but it is not likely since the court stenographer has not completed her transcription of the first trial in Common Pleas Court.

OSU Clinches 3rd Straight Title With 72-62 Victory

Lucas Gets 27 Points In Win Over Hawkeyes

By ED CORRIGAN
Associated Press Sports Writer

Ohio State, the nation's only undefeated major basketball team, has disposed of all its immediate business in the Big Ten and today began plotting for a return bout against Cincinnati in the NCAA championship.

The powerful Buckeyes, with two-time All-America Jerry Lucas scoring 27 points, clinched the Big Ten title and along with it a berth in the NCAA tournament Monday night by outclassing Iowa 72-62 at Iowa City. John Havlicek added 24 points to the Buckeyes' cause.

Now Ohio State's main interest will be to root Cincinnati home in the Missouri Valley conference and thus set up another shot against the Bearcats for the national championship. Last year Cincinnati whipped Ohio State, 70-65, in overtime, in the NCAA final. The Buckeyes have been smarting ever since.

Kentucky likewise apparently gained a berth in the NCAA tournament by nailing down second place in the Southeastern Conference with a 63-60 victory over Auburn.

Mississippi State whipped Tulane, 83-62, and continued to roll toward the SEC championship. But State has indicated it won't play in the NCAA tournament because of integration. Unless the Bulldogs change their minds, Kentucky gets the NCAA spot.

Kansas State and Colorado, both claiming for the Big Eight title, scored easy victories. Kansas State turned back Iowa State, 69-54, while the Buffaloes toppled Missouri, 63-58.

Colorado Stays In Front

Colorado remains in front with an 11-0 record, while Kansas State shows a 10-1 mark. They meet Saturday, and if Colorado wins, it's just about over.

Kansas State is ranked No. 3 in the current Associated Press poll, behind Ohio State and Cincinnati. Kentucky is No. 4, Mississippi State No. 5, Bradley No. 6 and Colorado No. 9.

Loyola of Chicago and Providence, both with berths in the National Invitation Tournament,

rolled to victories. Loyola humiliated Washington of St. Louis, 103-80, and Providence had no trouble with Fairfield, 88-65.

Western Kentucky, the Ohio Valley Conference NCAA representative, turned back Eastern Tennessee 77-66, and Creighton, an NCAA at-large entry, toppled North Dakota State 84-54.

Mississippi, Georgia, Florida and Alabama all recorded South eastern Conference victories. Ole Miss polished off Louisiana State 74-68; Georgia edged Vanderbilt 71-69; Florida dropped Georgia Tech 82-75, in overtime, and Alabama came from behind to beat Tennessee 71-70.

Northwestern Coasts

Northwestern coasted to a 71-67 triumph over Michigan State in a Big Ten game. Marquette defeated St. Louis University 80-64 and Oklahoma City squeezed past North Texas State 72-68.

While Ohio State was rolling to its Big Ten title, four other games were being played on the Ohio scene.

Baldwin - Wallace nipped Youngstown 66-64 in an overtime; John Carroll down Penn 84-70; Tennessee State toppled Central State 92-84 and Huntington of Indiana edged Bluffton 85-82.

Jerry Schrock tipped in a basket with 31 seconds remaining in the overtime period to give the Yellow Jackets their triumph over Youngstown. The score was tied 28-28 at the half. B-W is now 15-12 for the season, Youngstown is 15-11.

John Carroll Wins

John Carroll made it five in a row in the victory over Penn. The Blue Streaks led throughout and were paced by 6 foot - 5 Don Gacey, who scored 21 points and grabbed 19 rebounds.

Central State, now 12-7, led only twice—both in the first half and both times by only one point. The Marauders trailed by one point, 36-35, at the intermission, but Tennessee State pulled away in the second half.

Bluffton's loss was its 15th in 20 games and concluded the Beavers poor season which saw them finish last in the Mid-Ohio League.

Testifies In \$10 Million Antitrust Trial

Lamar Hunt Tells Court How He Organized AFL

By GORDON BEARD
Associated Press Sports Writer

BALTIMORE (AP)—A play-by-play account of the formation of the American Football League was to continue today in U.S. District Court in a trial of the AFL's \$10 million antitrust suit against the National Football League.

Lamar Hunt, founder of the AFL, testified more than four

hours on the first day of the trial Monday and was on the stand when Chief Judge Roszel C. Thomsen called a recess.

Hunt, owner of the Dallas Texans of the AFL, gave a detailed account of the steps he took to organize the new league after failing to obtain an NFL franchise.

The AFL was formally organized Aug. 22, 1959, Hunt said, just one week before George Halas of the National Football League's expansion committee announced that the NFL would move into Dallas and Houston in 1961.

Houston never joined the NFL, but the Dallas Cowboys were added in 1960—the same year the AFL came into being. Both Dallas teams have operated at a deficit during the two years they have been in existence.

The suit accused the NFL of monopolizing professional football and contends the move to Dallas was made deliberately to help undermine the AFL.

O'Brien To Retire From Shot Putting

LOS ANGELES (AP)—He has been hinting at its for some time and now Parry O'Brien has made it official: He is retiring from shot putting.

The 30-year-old former University of Southern California weight man said Monday he is giving up the shot but will maintain his amateur status and throw the discus in several meets this year.

O'Brien formerly held the outdoor mark of 63 feet, 4 inches for the shot and did 63-5 only to have Bill Nieder do 65-10 the same year (1960). O'Brien still holds the recognized indoor mark, 63-1½, but Gary Gubner recently did 64-11¼.

tract, the major league signing spotlight can swing to C. C. & C.

Roger Maris' decision to sign with the Yankees for \$72,000 (joining Mickey Mantle, who long ago settled with pleasure for an \$82,000 contract) left baseball with three key players to satisfy —Norm Cash and Rocky Colavito of the Detroit Tigers and Orlando Cepeda of the San Francisco Giants.

Ironically, each of the C's is included in the select company most think might challenge the record 61 home runs Maris clubbed last year to set himself up for the nearly 100 per cent raise he got from Yankee Gen. Mgr. Roy Hamey in Fort Lauderdale, Fla., Monday.

Both Cash, who led the American League in hitting with a .361 average, and Colavito, who crashed 45 homers and drove in 140 runs, are working out informally with the Tigers at their Lakeland, Fla., base. But Colavito particularly is being tough to deal with.

"I've reached the saturation point with Colavito," said Rick Ferrell, the Tiger vice president who handles the salary negotiations. Ferrell said he has countered Colavito's rejections with three increases without reaching the figure Rocky has in mind. Colavito reportedly wants at least a \$15,000 raise to \$50,000.

Cash, who outthit Maris by nearly 100 points, slugged 41 home runs and drove in 132 runs.

Cepeda, who hit .311 and powered 46 home runs and drove in 142, wants the Giants to double his salary to \$50,000.

Beside Maris, who will begin working out with the Yanks Wednesday, signers Monday included fiery Jim Piersall, for a reported salary of \$45,000 with the Washington Senators; first baseman Joe Adcock and right-hander Bob Buhl with the Milwaukee Braves; infielder Billy Goodman with the Chicago White Sox; and outfielder Whitey Herzog with the Baltimore Orioles.

This is a Ford Fairlane door latch.

There is no other door latch like it. It combines the strength of a bear hug with the precision of a surgeon's fingers. Its action is supple, its sound is solid. Like the 12-month or 12,000-mile warranty* first introduced by Ford, it is undeniable proof of the superb quality built into every Ford car. It may surprise you to find quality so high in a car that's priced as low as the Fairlane (actually under many compacts), but there are many surprises in this newest of automobiles. The fact is, you won't find any new car that gives you Fairlane's big-car room, choice of V-8 zoom and fine-car quality anywhere near Fairlane's surprisingly low price. There's no other new car that combines so beautifully all you ever wanted from a big car—with handling and economy compacts could envy. As a matter of fact, *there's never been a buy like Fairlane because there's never been a car like Fairlane*—and that's why this all-new car from Ford is now outselling every other "new-size" car. Which is as it should be. After all, how can you beat an unbeatable combination?

*Ford Motor Company warrants to its dealers, and its dealers in turn, warrant to their customers as follows: That for 12 months or for 12,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers of any part with a defect in workmanship or materials. Tires are not covered by the warranty. Appropriate adjustments will continue to be made by the fire companies. Owners will remain responsible for normal maintenance service and routine replacement of maintenance items such as filters, spark plugs, and ignition points.

Sports Equipment Overshadows Athletes

By TOM HENSHAW

AP Newsfeatures Writer

One of these days some thoughtful sports editor is going to add to his staff a consulting engineer. And he's going to have the most authoritative sports page in the country.

How else can he keep his readers informed on developments in a field where the equipment they wear or use is making bigger headlines than the athletes themselves?

And who is better equipped than an engineer to discuss such crucial matters as the tensile strength of a fiber glass vault pole or the modulus of resilience residing in a baseball?

It seems to be coming to that. A few weeks ago, a Marine named John Uelses startled track and field with history's first 16-foot pole vault. But his name wasn't headlined long enough for readers to learn how to pronounce it.

Seems Uelses (pronounced Yule-sess) was using a vaulting pole made of fiber glass, whereas

some lesser men, the 15-footers, were using poles made of steel or bamboo to help them over the bar.

DOES THE fiber glass pole add inches to a vaulter's height? Does it spring him over the bar like a catapult? Should it be ruled illegal? Should Uelses' record count?

So far, no scientist of note has taken Uelses' pole and put it through a series of exhaustive laboratory tests to determine its special properties, if any.

But only last summer they were doing it to baseballs. It seemed for a while that the ball parks were simply crawling with physicists. They bounced the baseballs, weighed them and even tore them apart to see what made them tick — or rather, quick.

Before the subject was exhausted, some sports pages were starting to read like the annual report of the American Institute of Physics, replete with formulas, logarithms and diagrams.

THEY PROVED, beyond the shadow of a doubt, that the baseball used during the 1961 season was livelier than the one used in 1927 — and vice versa.

The significance of the dates is that Babe Ruth, using a heavier bat, hit 60 home runs in 154 games in 1927 while Roger Maris, using a lighter and easy to handle bat, hit 61 in 163 games in 1961. Track and baseball aren't the only sports infected by the equipment virus.

Until the debate simmered down, the information as to whe-

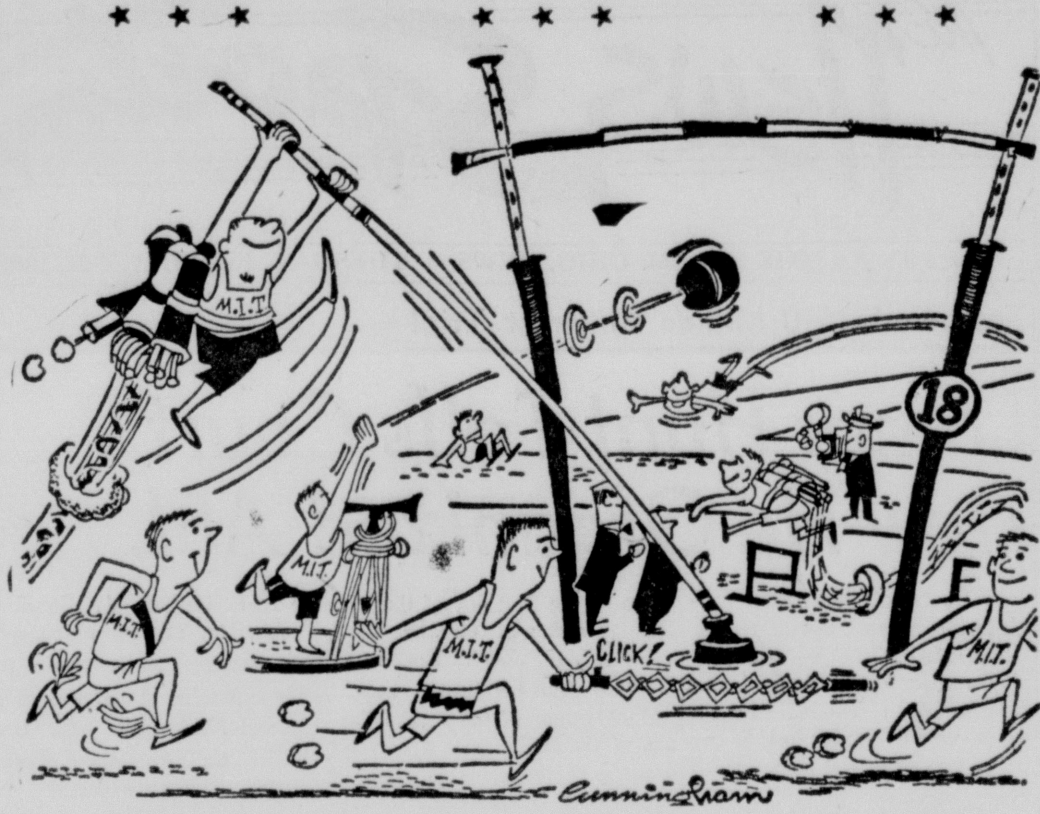

ther the goalie wore a mask — and what kind — took precedence over the score in some hockey games.

Does his fiber glass (there's that word again) mask cut down the vision of Jacques Plante of the Montreal Canadiens to the extent that he has difficulty seeing pucks traveling at 90 miles an hour?

PLANTE AND his record say no but we'll never know for sure until some physicist measures the angles of light and puts the figures to his slide rule and comes up with an answer acceptable to the "new" sports pages.

Perhaps, in the not-too-distant future, we shall see the return of the Massachusetts Institute of Technology to prominence as an athletic power.

Not that its athletes will be any better. But its laboratories will be turning out better equipment — and its classrooms will be turning out more authoritative sports writers.

Yanks' Payroll Skyrockets To Highest Ever

By JOE REICHLER

Associated Press Sports Writer
FORT LAUDERDALE, Fla. (AP) — The skyrocketing New York Yankee payroll, highest in the major leagues, reached unprecedented heights today following the signing of Roger Maris to a \$72,000 contract for 1962.

With four players earning \$50,000 or better and 10 others receiving \$20,000 or more, the Yankee payroll is a record \$800,000.

The mighty rajah, who hit 61 home runs in '61, for a one-season major league high, received a 96 per cent increase Monday. He was paid \$37,500 last year, when he led the American League with 142 runs batted in, 366 total bases and was voted the Most Valuable Player for the second straight time.

The 28-year old left-handed slugger thus becomes the fourth highest salaried player in Yankee history. Joe DiMaggio drew \$100,000 a season in 1950 and 1951, Babe Ruth was paid \$80,000 a year in 1930 and 1931, and Mickey Vernon reportedly is getting \$82,000 this season.

"This easily is the largest payroll in the history of the Yankee organization, or that of any other organization for that matter," said Roy Hamey, the Yankees' general manager. "We are happy to pay it. The Yankees enjoyed a good year in 1961—both financially and artistically—and the players were responsible. I hope we have an even better year in '62 and we will gladly pay the fellows accordingly."

"I'll take them as they come," he said. "I don't believe in counting my chickens before they are hatched."

OSU, Cincy Pull Away In Cage Poll

By The Associated Press
There were some revisions in this week's edition of The Associated Press college basketball rankings, but Ohio State's mighty Buckeyes remained unchallenged as No. 1.

For the eleventh successive week the unbeaten Buckeyes were unanimous choices for the top, collecting the first-place votes on all 47 experts on AP's nationwide panel.

Kansas State advanced one notch, moving into third past Kentucky, and Utah supplanted Oregon State in tenth place. Oregon State was upset by Idaho last Friday night for its third straight loss. Voting was done on the basis of results through last Saturday.

Otherwise, rated teams held their positions. Ohio State is the Big Ten champion, Bowling Green has wrapped up the Mid-American title and all eight of the other ranked squads are contending for major conference championships.

The rankings, based on a first-place votes in parentheses:

1. Ohio State (47)	470
2. Cincinnati	401
3. Kansas State	345
4. Kentucky	340
5. Mississippi State	273
6. Bradley	183
7. Bowling Green	165
8. Duke	121
9. Colorado	69
10. Utah	30

MAHONING COUNTY CAGE CHAMPS — Nearby Greenford High School's varsity cage team, under the coaching of Jerry Sues, last week copped the Mahoning County Class A basketball tournament title after having won the Inter-County League crown. The Bobcats, who now possess a 15-6 mark over-all, will tackle Lakeview High of Trumbull County in the opening round of the Warren Sectional Tournament Thursday night.

Orsburn's, Old Dutch, Salem Tech Win

3 Teams Tied For Lead In Cage Loop

Orsburn's Market team moved into a three-way tie with Salem Stamping and First National Bank for first place in the second round of play in the City Class A Basketball League with a 4-0 mark when it dumped Damascus 82-65 in action in the Memorial Building Monday night.

In other action last night, Old Dutch, the first round winner, continued undefeated (3-0) with a 81-61 trouncing of Westville, and Salem Tech evened its record at 2-2 on the strength of its 65-55 decision over Berlin (0-5).

Orsburn's had little trouble with Damascus (0-4) as it led at ev-

Farm News

Topics of Interest To Farmers; Notes About Meetings

WASHINGTON (AP) — Secretary of Agriculture Orville L. Freeman apparently feels his department will have an increasingly large role in exporting and importing farm products.

This is the interpretation being placed on Freeman's action last week of raising the status of the department's Foreign Agricultural Service. Formerly a part of the department's marketing activities, the foreign service will now come under direct supervision of Undersecretary of Agriculture Charles S. Murphy.

It is expected the Foreign Agricultural Service will carry a major share in assisting the State and Agriculture Departments in negotiations affecting U.S. exports.

WASHINGTON (AP) — Surveys show that the pilot food stamp plan is boosting business of retail grocery stores around 8 per cent in the eight areas where it is being tried.

Reporting this, the Agriculture Department said that in these areas, the food trade, banks and the general public have expressed the feeling the plan is good for the general economy of the community as well as for the recipients.

Under the plan, eligible needy persons receive stamps usable for purchase of food at grocery stores. In these areas, it has supplanted the government's food donation program.

The pilot areas are: Fayette County, Pa.; McDowell County, W. Va.; Floyd County, Ky.; Detroit; parts of Itasca and St. Louis counties in Minnesota; Franklin County, Ill.; Silver Bow County, Mont.; and San Miguel County, N.M.

WASHINGTON (AP)—The nation lost an estimated 123,000 farms last year and 544,000 during the last five years largely due to consolidation.

Reporting this, the Agriculture Department said there are 3,688,000 farms in the continental United States, compared with 3,811,000 last year and 4,232,000 five years ago.

The decline since 1950 was reported at 1,959,000. The report showed that not a single state escaped the decline from last year.

Middle-Aged Hero

By HAL BOYLE

NEW YORK (AP)—At last the country has what it long needed—a good middle-aged hero.

Astronaut John H. Glenn Jr. fills the bill perfectly.

By orbiting the earth three times last week he did more than merely lift America's scientific prestige in the eyes of the rest of the globe.

He made every middle-aged man in the nation stand half a head taller—and feel like there was a place in the world for him after all.

Yes sir, Lt. Col. Glenn of the U.S. Marines made middle age downright respectable in a land which for too long has placed too much emphasis on the value of being young.

John Glenn has been dry behind the ears for some time now. He is 40, has acquired a few wrinkles, and shows considerable scalp.

If two weeks ago he had sought a new job, many firms would have automatically rejected him because of his age. Many have a policy against hiring men 40 or over. Such men are regarded as "too old."

Too old? At 40 John Glenn, who still conditions himself by running two miles a day, made the greatest leap into space of any American in history. He gave us all a badly needed lesson — that the judgment and skill which come with maturity are at least as important as the blind self-confidence and raw courage that

go with youth. Traditionally, from Alexander the Great to Romeo, we have tended to expect our heroes in both war and love to be young men. At least those who win renown by individual feats in action.

Even Thomas (Stonewall) Jackson, one of the most admired leaders of the Civil War, was dead at 39.

Sgt. Alvin C. York, the most publicized hero of the first World War, was a young man. In the

second World War, Audie Murphy had won about every combat medal in the books before he was old enough to vote.

Perhaps because we still think of ourselves as a young people, the accent on youth has been almost as pronounced in peace as in war in this country. We have blindly venerated the young at the expense of the middle-aged and the elderly.

Thus parents come to stand in awe of their own children, and many of us begin to think that growing old is the worst of all diseases—if not a positive crime. We cling desperately, and often ridiculously, to youth as though it were a salvation in itself—and all beyond it darkness. And the rest of the world sensibly laughs at us for this national obsession.

At 40, Glenn did more than prove himself. He opened a new vista of hope to millions of time-fearful men and women by showing them that achievement and heroism are not the property of youth, but are available at any age.

From now on any teen-ager who doesn't show proper respect to our years and gray hairs is likely to get himself bopped.

For in all us middle-aged there is a hero trying to get out—if he can only find the way.

What size Chevrolet do you want to save money on?

CHEVROLET IMPALA Room, refinement and riding comfort. Fore-ground, the Impala Sport Sedan.

CORVAIR MONZA Sports Car spice without a sports car price. At rear is the Monza Club Coupe.

CHEVY II NOVA The frisky family-sized Chevrolet with a low, low pricetag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvair Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that

won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

So size 'em up—then save it up—at your Chevrolet dealer's.
